GOOD REASONS TO TRY HÖRMANN

HÖRMANN *Truedor*

THE FINE ART OF COMPOSITE DOORS

“A GOOD REPUTATION MUST BE EARNED.”

AUGUST HÖRMANN

In keeping with the tradition started by the Company's founder, the name Hörmann delivers brand name quality with extensive product expertise.

The family business has over 80 years of experience as a construction component specialist and sees itself as your partner from the very beginning of building and renovation projects.

It's no surprise that Hörmann is one of Europe's most successful door providers. This makes a Hörmann door a reassuring purchase.

QUALITY PRODUCTS FROM GREAT BRITAIN

All doors are developed and manufactured by Hörmann. Our highly qualified employees work intensively on new products, continual further developments and improvements to details. Patents and unique products on the market are the result of this. Endurance tests under real conditions ensure mature series products with Hörmann quality.

STATE-OF-THE-ART MANUFACTURE IN THE UK

Our doors are manufactured in the most advanced door manufacturing facility in the UK. Our new factory creates door sets from slab to finished product, with all stages of production contained on a 1km production line. This is overseen by a dedicated production team with over 300 years of experience between them.

SECURED BY DESIGN

All Hörmann-Truedor GRP doors can achieve Secured by Design Certification. This initiative, operated by the UK Police Services, ensures that our doors are designed with security in mind, helping to prevent crime.

TOUGH & ROBUST AS STANDARD

All of our manufactured GRP door slabs are not only available to comply with the Secured by Design scheme, but are also expertly finished with a high-quality ABS Edge Banding. This ecologically sound, impact-resistant, and thermally resilient material ensures your doors are not only beautiful, but also built to last.

DOORS FOR GENERATIONS

We are committed to providing you with complete peace of mind when you choose a Hörmann-Truedor door for your property. Our priority is to ensure that you receive the highest level of service and care for your door, so that you can enjoy your door without any worries for many years to come.

AN EYE ON THE FUTURE

Hörmann leads by example, sourcing over 100% of its energy from green sources and continuing to increase that percentage. Intelligent and certified energy management system saves tonnes of CO₂ each year. Additionally, Hörmann provides sustainable construction products. Learn more about their environmental efforts in the “We Think Green” brochure.

INTRODUCING THE

TRADITIONAL RANGE

Whether you live on a Victorian terrace or a modern development, your home is as individual as you are and deserves a front door that makes a unique statement about you. By choosing a modern, composite door you can benefit from a vast range of styles, colours, glass options and handles, and what's more, every door is made to measure.

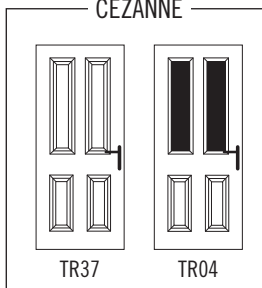

There is something of the traditionalist in all of us, as we celebrate the strengths of British culture such as art, design and manufacturing in the furnishing of our homes. Crafted in Britain, all our Traditional doors are finished to perfection.

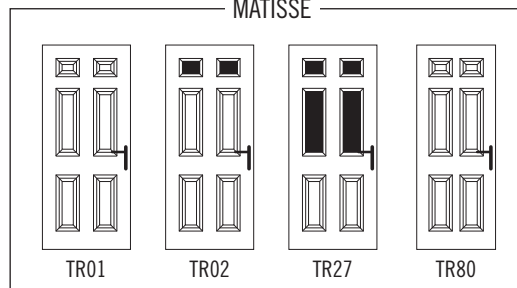

From the style and colour to the choice of glass and handles, you can select from an impressive array of options to create your own bespoke door. The different door styles in the Traditional range marry timeless elegance and classic design.

From the beautifully understated, four-panel Cézanne to the striking and robust Rembrandt, these versatile doors suit a wide variety of homes.

INTRODUCING THE

COTTAGE RANGE

Character properties are perennially popular among home buyers who are looking for a piece of history. These period properties usually offer original features which their owners seek to preserve. Even when looking to renovate or improve these homes, attention to detail is key, so modern fixtures with heritage overtones are the ideal solution.

Country cottages are renowned for oozing charm whilst affording a warm welcome. From their flagstone floors and cast-iron fireplaces through to their tightly thatched roofs and sturdy garden gates, the typical British cottage is a byword for expert craftsmanship.

Great care must be taken in restoring and maintaining cottages to retain their unique nature, with owners becoming the custodians of their past and future. Salvage yards can be a gold mine for

reclaimed fittings and furnishings such as Victorian radiators and aged railway sleepers.

But finding entire sets of matching windows or original front doors of any quality is practically impossible.

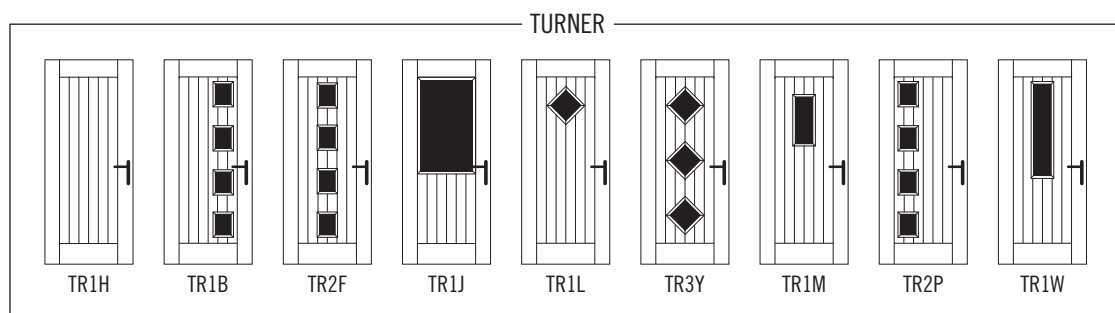

With the Cottage range, Hörmann Truedor makes it possible to put a totally modern door on to any character property in both urban and rural environments.

The Turner door is available in several

different styles; choose from our wide variety of colours, and wood stains along with a great choice of glass options.

It is finished with a classic 'tongue and groove' appearance, reminiscent of a sturdy cottage door.

The Cottage range brings a sense of the countryside to any home and with a solid wood-look finish, delivers substance without losing any of the style.

**COTTAGE
RANGE**

**A LITTLE PIECE
OF THE
COUNTRYSIDE
IN ANY
SETTING.**

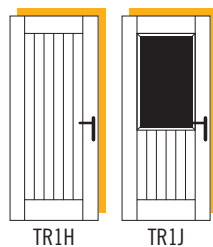

Available in a variety of styles, with a great choice of glazing options, the Turner has a 'tongue and groove' effect which is reminiscent of a farmhouse door. It brings a distinct rural feel to any property.

INTRODUCING THE

CONTEMPORARY RANGE

There has been a significant number of new homes built over the last 50 years. Often, these more modern homes need doors and windows that are in keeping with the surrounding architecture.

There is an increasing number of exciting, contemporary doors available to homeowners looking to give their house a clean, fresh look. These ultra-new door styles provide instant sophistication to a home.

The Contemporary Range for a truly modern door. Your front door provides the best security for your castle. It protects you from the extremes of British weather and offers true durability.

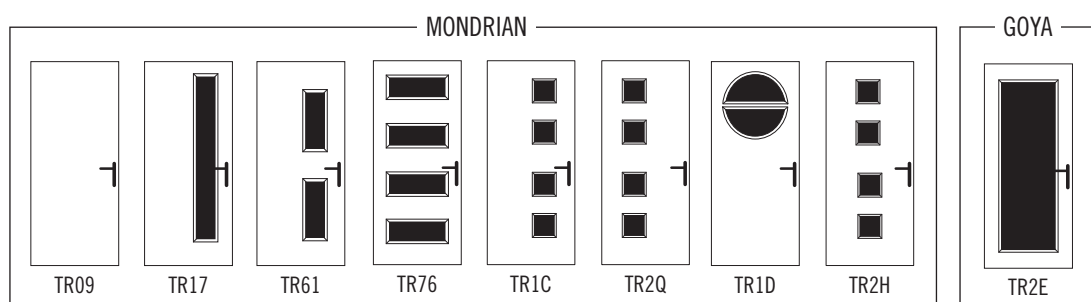

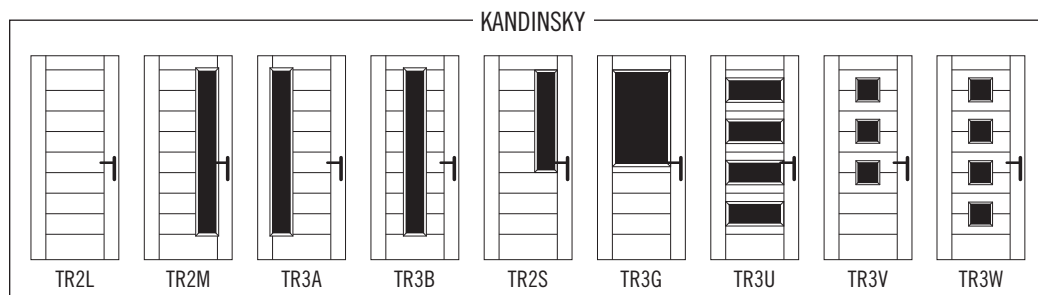

Every door in the Hörmann Truedor range is made from GRP glass-reinforced polymer. This material is strong, long-lasting and affordable. Aside from those benefits, there are many practical reasons why we choose

to work with it. GRP composite won't warp or split and can combine traditional wood aesthetics with low maintenance technology. With none of the disadvantages of timber but the same aesthetic appeal, why would we use anything else?

Across the exquisite Kandinsky, Mondrian and Goya collections in the Hörmann Truedor Contemporary range, there are many smart door styles to choose from.

Side and top panels surrounding your door frame can compliment a contemporary door style and allow more light into the hallway.

If a Contemporary door style feels like a radical departure for you, try the Hörmann Truedor online door designer to test out the Kandinsky, Mondrian and Goya in different colours.

CONTEMPORARY RANGE

THESE STRIKINGLY
MODERN DOORS
MAKE THE RIGHT
FIRST IMPRESSION,
EVERY TIME.

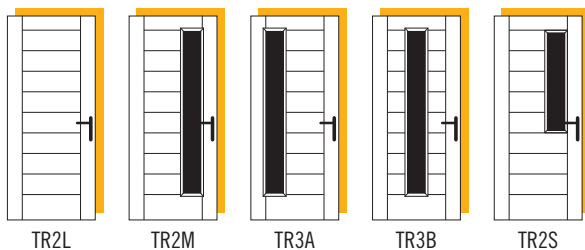

*The stylish Kandinsky door provides instant sophistication to any home. This contemporary door is available with left, right or centred contemporary glazed panels, or can be ordered as a solid door for complete privacy.
Which one will you choose?*

CREATIVE TOP FIVE TIPS FOR ENHANCING KERB APPEAL

“

Your front door is the face of your home - it's the first thing people see, so don't follow the crowd, design your own and really go to town. With your front door you have more freedom to express yourself, perhaps picking a colour that you wouldn't normally choose for your interior walls. Changing the front door is a quick win but a real game changer in terms of how people perceive you and your home.

”

1. CREATIVE COLOUR

If you're feeling adventurous, go for strong, bright colours for your front door but choose a shade that complements your own personal style and the rest of your home. If you're not feeling brave, black is always a safe bet, or opt for darker shades of blue, plum and green that will still make a design statement.

2. CLEAN LINES

Symmetry at the front of a house is always a good idea. Consider positioning plants so that there's an equal number on each side of the entrance for impact and any outdoor lighting will generally always look better in pairs.

3. FLOWER POWER

Think about stylish hanging baskets, planters and window boxes. Flowers, shrubs and greenery can really lift the entrance to a home and complement the colour and style of the front door. Make sure you water and feed them regularly to keep them in tip-top condition.

4. KEEP IT CLUTTER FREE

Keep doors, pathways, steps and open porches free from leaves, dust, dirt and other debris and if you've got a front door mat make sure it's kept clean and looks appealing.

5. THE DETAILS MAKE THE DIFFERENCE

It's always worth investing in good quality door accessories such as letterboxes, doorknobs and knockers, and try to make sure you choose door furniture that is in keeping with the style and age of your property.

OUTDOOR LIVING AS A CONCEPT HAS BECOME INCREDIBLY ASPIRATIONAL IN RECENT YEARS, SO WHY NOT MAKE YOUR BACK DOOR A PART OF IT?

YOUR BACK DOOR CAN LOOK AS GOOD AS THE FRONT.

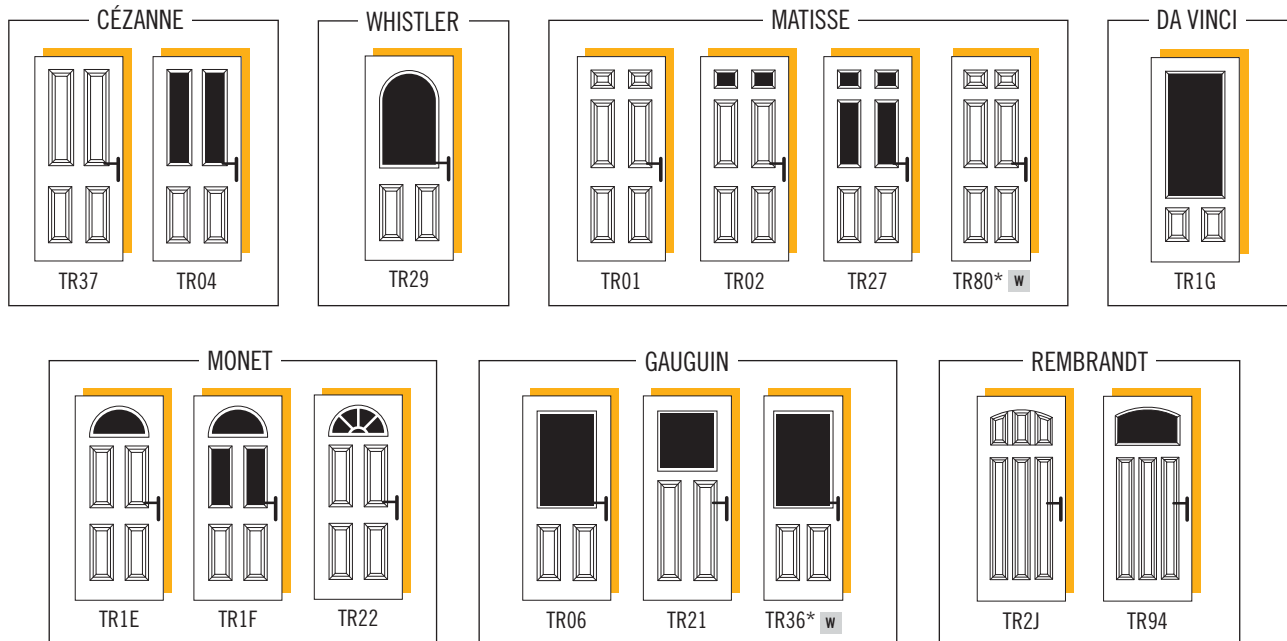

Back doors do not have to be simple styles, they can be as interesting as those you choose to install on the front; the range of styles is as complementary to the back of a home as it is to the front - who said you cannot have a feature door on the rear of the home?

It's time to move on – let's explore the benefits of a composite door as a product suitable for the rear of the home with the same enthusiasm as we have always done as a product suitable for the front.

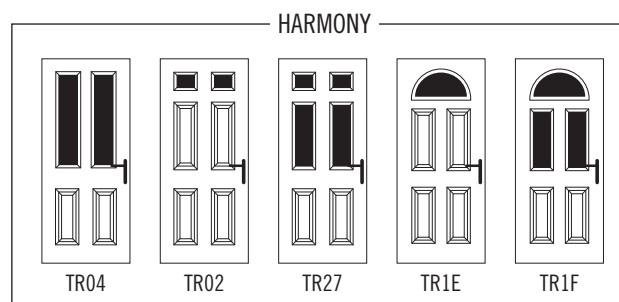

Let's bring back doors to the front of our thinking.

TRULY BEAUTIFUL HARDWARE

We feature fully suited hardware as standard. Our 2 Star high security door handle is an attractive looking product, which offers an ergonomic design with no compromise on grip length. The handle has been designed to protect the cylinder from attack and provides a visible and obvious deterrent to potential intruders.

The letterplate has been designed very much with aesthetics in mind with its simple but elegant styling, designed to complement any door and suited finishes with other door furniture. The construction is unique with pressed metal flaps that shroud the surround from view.

The door knockers, numerals, eyeviewer and lettering have been sensitively designed to complement the features of any external door face. Manufactured from 304 stainless steel (with the exception of the eyeviewer which is brass), the products offer ultimate corrosion resistance for ultimate performance.

GUARANTEES - PEACE OF MIND GUARANTEED

Once fitted, the doorset is guaranteed for up to two years, depending on the finish and paint selected.

TRULY SECURE COMPOSITE DOORS

Our composite doors are fitted with high security multipoint locking systems as standard. These locks meet the requirements of PAS 23/24 and are tested in accordance with BS EN ISO 1303 Building Hardware – Cylinders for Locks.

TRIPLE HINGE-BOLTS To take the security of our composite doors to an even higher level, we also supply our specially designed dog bolt system as standard. This involves two sets of triple hinge-bolts that secure the composite door to the frame, protecting you against intruders. Designed to complement our existing high security multi-point lock.

NEW ANTI SNAP, BUMP, DRILL & PICK... YOUR CHOICE!

Secured by Design approved UAP Kinetica Kitemarked high security 3 Star Cylinder, now available across the Hörmann Truedor range. The cylinder is designed and tested to ensure that if it is attacked from the outside it can still be opened from inside, ensuring that the door will continue to be secure and safe to use and will function as normal for the homeowner.

TRUEDOR**

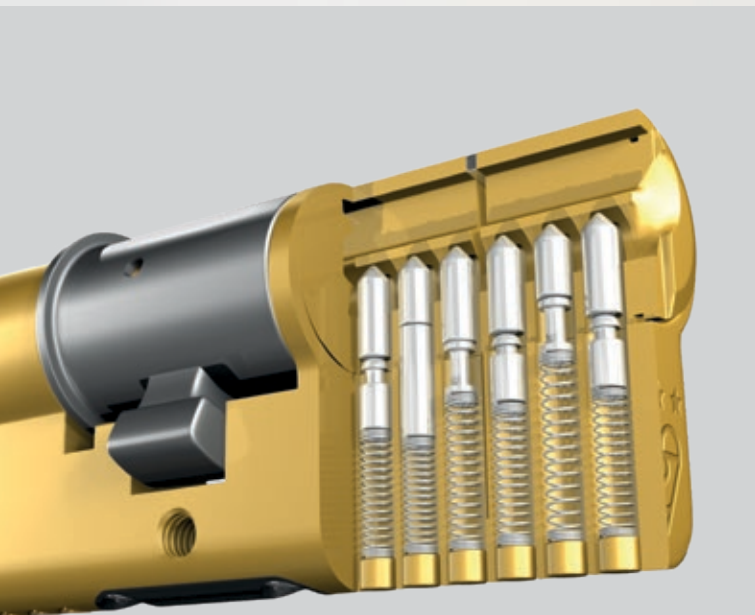

SECURED BY DESIGN

Secured by Design is a crime prevention initiative operated by the Police Services of the United Kingdom, which aims to utilise design principles and products in the build environment that reduce the risk of crime by combining minimum standards of physical security and proven principles of natural surveillance and defensible space. Independent research has shown that these principles can lead to a reduction in crime of up to 75%.

- **MANY HÖRMANN TRUEDOR DOORS CAN BE UPGRADED TO SECURED BY DESIGN**
- **MEETS PAS24:2016 CERTIFICATION**
- **COVERED BY INDEPENDENT THIRD PARTY PRODUCT CERTIFICATION VIA THE PRESTIGIOUS BSI KITEMARK SCHEME**
- **3 STAR SECURITY AS STANDARD, MEETING DOCUMENT Q**
- **LAMINATED GLASS & SECURITY GLAZING CASSETTE**
- **GRP DOOR SKINS ARE THICKER THAN MOST COMPETITORS AND HAVE PASSED SECURITY CUTTING TESTS**
- **HIGH SECURITY LETTERPLATE, DOOR CHAIN AND EYEVIEWER**
- **SECURE BOLT THROUGH FURNITURE**
- **ELECTRIC LOCK OPTIONS AVAILABLE**
- **STEEL REINFORCED PVCU FRAMES**
- **AVAILABLE FOR COMMUNAL ENTRANCE DOORS**
- **SIDELIGHT OPTIONS AVAILABLE**

ENSURE YOU'RE SECURE WITH COMPOSITE DOORS

We supply a 'split spindle' option with every door which further enhances security. The composite door then locks on the latch as soon as the door is shut and requires a key to unlock it from the outside. We can also offer other composite door furniture as an alternative if required.

THE FINE ART OF COLOUR

WELCOME GUESTS TO YOUR HOME WITH A STYLISH FIRST IMPRESSION, THANKS TO THE HÖRMANN TRUEDOR COLOUR COLLECTION.

With 35 shades to choose from, including calming pastels, cool greys, and bold sunny tones, you'll find the perfect fit for your project. Add stainless steel hardware in a polished, brushed, gold, black, or granite finish to complete the look and create a unique personality for your home.

Our Traditional, Cottage, and Contemporary collections come with a set of 10 classic colours, while our premium range of 25 colours includes classic heritage shades and daring bright hues. Add a touch of personality and sophistication to any door installation with our colour collection.

*Please note that the internal face of each door is white.
